in @ https://www.linkedin.com/in/nabin-kutu-72a3571a1/

As a diligent, fast learner, and resourceful IT graduate, I am an excellent candidate for an IT company seeking to fill an open position. I possess a good problem-solving ability and can readily adapt to new technology. I also approach tasks with a sense of responsibility. I am enthusiastic about taking on challenges and applying my skills and knowledge to any given situation. Moreover, I am proficient in React development.

EXPERIENCE

Mid-level React Developer   Lalitpur, Jwagal

Waft Technology   Mar, 2023 - Present

- Integration of user behavior analytics tool (Microsoft Clarity and Google Analytics)
- Additionally, skilled in utilizing UI component libraries such as Mantine UI and Chakra UI to enhance user interface design and development.
- Created modules on backend Framework (Node JS)
- Implemented Agile methodologies, particularly SCRUM framework, to guide software development processes in alignment with business requirements.
- Worked as a React developer where I worked on Waft-Engine (Open Source Platform) and Waft- CRM.
- Experienced in integrating diverse payment gateways, both domestic and international, to enable secure online transactions within web applications (Acleda Bank Pay, khalti, and eSewa)
- Worked on Loan management system (Kollect AI)
- Converting clients' business requirement documents into project shipment schedules by dividing them into epics and tickets for streamlined implementation and monitoring.
- Refactoring the React project into various versions to optimize performance.

Mid-level React Developer   Banglore, India

EXL (Resource outsource from Wafttech))   Jul, 2023 - Dec, 2023

- Designed and implemented the frontend interface using React.js, allowing users to upload PDF documents and submit search queries relating to the document uploaded.
- Proficient in uploading files to AWS S3 for file management
- Engaging in discussions after client meetings to thoroughly analyze task division and establish appropriate time constraints based on their requirements
- Successfully delivered the demo project within the specified timeline, meeting all functional requirements.
- Engaged in multiple projects, effectively maintaining codebases to meet project-specific requirements.

Junior React Developer   Lalitpur, Jwagal

Waft Technology   Mar, 2022 - Mar, 2023

- Building reusable components on React
- Worked as front-end developing product in Next Js 13 (Waft-commerce, Opendatafabric) and (io-fund) in Next js 12 for SSR.
- Proficient in Tailwind CSS and Bootstrap for efficient and responsive styling of web applications.
- Integration of user behavior analytics tool (Microsoft Clarity and Google Analytics)
- Additionally, skilled in utilizing UI component libraries such as Mantine UI and Chakra UI to enhance user interface design and development.
- Experienced in state management using Redux and Redux Saga, as well as leveraging Redux Toolkit for streamlined development workflows.

Internship React   Banepa

Axios Softwork   Dec, 2021 - Feb, 2022

- Worked as a React developer intern where I worked on their Customer Relation Management project (Axios CRM)
- Worked as a team for Agile product development

- Designed a responsive website with greater user experience using React JS, Sass, Next JS.
- Worked with React useContext Hooks for Global State Management Certifications

EDUCATION

Bsc.(hons) in Computing   Kathmandu

Softwarica College of IT and E-commerce   Nov, 2018 - Nov, 2021

PROJECTS

Kollect AI

Kollect AI , core mission is to empower organizations with advanced AI solutions and efficient data management. We simplify customer-centric financial solutions, from seamless onboarding to effective loan management and collections.

Open Data Fabric

Open Data Fabric is the company's static website showcasing comprehensive information about the company's services with cutting edge AI solution.
https://www.opendatafabric.com/

Waft Commerce

WaftCommerce is an ecommerce design platform that comes with built-in e-commerce functionality. It is flexible and suitable for all business models, whether small or large.
